Dear Property Owners and Residents:

**Re: Notice of County Bridge Culvert Replacement (BF 78067)**

---

We are writing to let you know that Sturgeon County is planning significant infrastructure improvements in your area this year. The bridge culvert structure on Range Road 235 (Lily Lake Road), north of Township Road 580 that spans a tributary stream to Redwater River, has been in service since 1987. It is in poor condition due to corrosion and is now nearing the end of its serviceable life. To ensure the safety of those using the bridge, the County is planning to replace the structure in the 2024 construction season.

### **Scope of work**

The project involves removing the current bridge culvert, improvements to the road, and installing a new structure. We will have a better idea of when this work will be scheduled when tendering is complete and a contractor is chosen (anticipated in early May 2024); however, it is anticipated that the project will be done between July and November 2024. Please be aware that construction schedules may change depending on weather conditions.

### **What this means to you**

There will be Sturgeon County project personnel and contractor crews working within and around the project area. The project will require a temporary road closure to complete the work. The temporary road closure is estimated to be approximately 21 days. An identified detour route will be provided, and signage will be in place to direct traffic. The detour will receive an application of dust control, will be inspected daily, and will be maintained and repaired accordingly.

### **Staying in touch**

To stay up to date on all our projects, please visit the road construction project pages on our website at [www.sturgeoncounty.ca/Roads](http://www.sturgeoncounty.ca/Roads). We encourage you to sign up to follow this construction project, as well as any others that may be of interest, and receive weekly progress email updates.

After reviewing this letter, we ask that you contact the County Project Manager, Mark Guerette at **780-939-1324** or by email at [mguerette@sturgeoncounty.ca](mailto:mguerette@sturgeoncounty.ca). He will provide further details and address any questions you might have.

We appreciate your understanding as we work to enhance Sturgeon County's infrastructure.

Sincerely,

Max Adu-Safo.

Acting Director, Transportation & Engineering Services of Sturgeon County
