

Application Form for the Sturgeon County Agricultural Service Board – Junior Member

We're looking for the perspective of Sturgeon County's youth in finding ways to embrace our farming history with a vision for the future.

The Agricultural Service Board (ASB) plays an important role in ensuring Sturgeon County is informed of the needs and priorities of the agricultural community. The ASB also advises Council and administration in the development and implementation of strategies and plans relevant to the agricultural sector including the Agriculture Master Plan. The board makes recommendations to Council on other agricultural matters including weed control, pest control, and soil and water conservations programs.

Members of the ASB also participate in the ALUS Partnership Advisory Committee by reviewing and approving conservation projects proposed by local agricultural producers through the ALUS Sturgeon program.

The board meets five times per year, and members are paid for their time at meetings.

Serving on the board is a great way to learn more about the future of agriculture and the role of boards and committees in supporting Council decisions. Board experience is also an impressive addition to your resume and can help expand your network.

Interested in becoming a junior member of the Agricultural Service Board? Here's what we look for in a candidate:

- Resident of Sturgeon County
- Between 16 and 25 years of age
- May be involved in agricultural programs or studies at the time of your application
- Open to sharing and learning new ideas and best practices in agriculture
- Available to attend at least five meetings per year
- Interested in the longer-term viability of agriculture in Sturgeon County

If this sounds like you, then apply today!
