

Canadian Hydrogen Week

April 22 - 24, 2025

Proclamation

April 8, 2025

Whereas, hydrogen is a critical piece in Sturgeon County, and Canada's journey to a sustainable, low-carbon future, addressing climate change and embracing new technologies; and

Whereas, Sturgeon County has an abundant resource in Hydrogen with Alberta producing two thirds of supply, offering economic and industrial opportunities, future regional, provincial, and national partnerships, to be leaders in hydrogen technology and adoption; and

Whereas, the Canadian Hydrogen Convention will showcase the region as a leader in production, development, and the practice of clean energy, the convention will be hosted in Edmonton April 23-24, 2025, and feature resources to increase infrastructure, produce low-carbo hydrogen and maintain low-cost production.

Therefore, I, Alanna Hnatiw, Mayor of Sturgeon County, do hereby proclaim the week of April 22 - 24, as Hydrogen Week in Sturgeon County, and celebrate hydrogen as a key element as Sturgeon County looks to the increased adoption of sustainable energy.

Alanna Hnatiw
Mayor, Sturgeon County
